EDUCATION

Georgia Institute of Technology

Expected Dec 2026

Master of Science in Analytics - Focus in Business Analytics | GPA: 4.0/4.0

- **Courses:** Computing for Data, Analytics Modeling, Unstructured Data Analysis (NLP), Business Data Analytics, Simulation, Human-Computer Interaction, Data Mining & Statistical Learning, Visual Analytics, Regression

Boston University

Sep 2018 – May 2022

Bachelor of Arts in International Relations - Focus in International Economics & Business

- **Minor** in Computer Science
- **Courses:** Software Engineering, Data Structures & Algorithms, Computer Systems, Probability in Computing, Market Structure & Economic Performance, Global Business Environment, Technology & Economic Inclusion

WORK EXPERIENCE

NBCUniversal

New York, NY

Product Management Intern

Jun 2026 – Present

- Assist Content Supply Chain team on Scheduling & Distribution and Ad Integration AI features across Linear TV and streaming platforms while working alongside Engineering and Business units

Product & Program Management Intern

Sep 2025 – May 2026

- Supported Viewing features and roadmap initiatives across 3 streaming platforms (SkyShowtime, NOW, Showmax) by collaborating with product managers and technology stakeholders in Global Streaming Technology teams
- Led product discovery for short-form content feature by assessing user behavior, competitive capabilities, and regional data constraints across 4 markets, guiding feature definition and prioritization
- Defined and implemented AI-driven use cases for Slack-integrated RAG model and Microsoft Copilot agents to extract Jira data, expediting information retrieval and formatting for executive reports
- Owned biweekly release reporting by synthesizing Jira summaries, validating feature-flag activations, and tracking deployment timelines across 10 device types, informing rollout strategy to external platform partners
- Audited 155 Jira feature tickets to align delivery dates and statuses across Engineering, Product, and Program teams, correcting 42% of discrepancies while improving roadmap accuracy and visibility

SAP

Alpharetta, GA

Strategy & Operations Intern

Jan 2025 – Jul 2025

- Spearheaded development of deals approval system with Power Automate by gathering user needs, prioritizing features, and aligning with business partners, reducing processing time by 80% across 400 employees
- Created and reviewed 5 Power BI Dashboard to resolve assignment and customer pipeline data errors, increasing territory distribution accuracy by 15% while delivering 2025 go-to-market insights to Asia-Pacific executives
- Shadowed Product Managers and observed backlog prioritization, sprint planning, and cross-functional collaboration with UX and Engineering, gaining product management knowledge in SuccessFactors' GenAI team

PROJECT EXPERIENCE

Forked - AI Restaurant Rating & Review Platform

tryforked.com

- Designed and launched restaurant discovery platform using Cursor for AI-assisted development and OpenAI to summarize Yelp and Google reviews into AI suggestions, reducing cognitive load and streamlining user decisions

Venmo Group Split Redesign

bit.ly/4mo0Wgs

- Conducted needfinding with 25 participants by measuring Venmo usage frequency and decision-making during group transactions to identify 2 core user pain points in Venmo's group split flow
 - Designed 3 low-fidelity paper prototypes highlighting potential interaction flows and front-end interface options to address concerns about calculation effort and request transparency
- Developed responsive Figma prototype using quantified insights from surveys and interviews on initial designs, enabling end-to-end transaction flow demonstrations for requester and requestee roles

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL, R, Java
- **Product & Development Tools/Frameworks:** Agile, Jira, Confluence, Flask, Django, Cursor, Copilot Studio
- **Data Science & Analytics:** Pandas, NumPy, scikit-learn, NLTK, spaCy, gensim, BeautifulSoup, RegEx, Excel, Smartsheet, Power BI, SQLite, Tableau, Jupyter Notebook
